

As a subscription service, I can count on XM to be consistent and available anytime, anywhere. It is MY CHOICE to listen to XM, and if XM can offer local information that I can pay for, by choice, then it is my RIGHT to use it. It is a ludicrous notion that some outside influence can dictate what XM can or cannot offer. I live in America, and I enjoy the rights that America offers. XM is a service that found a way to gets its voice to a free people, and now some external force is trying to shut that voice down. THAT IS NOT AMERICAN, and it definitely is not what America stands for. Please take into consideration an objective, unclouded, view of the NAB petition. Thank you for your time.
